Frontend Developer Intern

Motivated Computer Science student with strong fundamentals in **HTML, CSS, and JavaScript**, experienced in building responsive web interfaces and interactive frontend projects. Actively seeking a frontend internship where I can contribute, learn, and grow through real-world development work.

Education

B.Tech – Computer Science & Engineering

CMR College of Engineering and Technology, Hyderabad | **2025 – 2028**

Diploma – Computer Science & Engineering

Sree Dattha Institutions, Hyderabad | **2022 – 2025**

Secondary Education (CBSE)

The Nalgonda Public School, Nalgonda | **2022**

Technical Skills

Frontend: HTML5, CSS3, JavaScript

Tools & Platforms: Git, GitHub, VS Code, XAMPP

Programming & Databases: Java (Basics), Python, MySQL

Core Concepts: Object-Oriented Programming, Web Development Fundamentals

Projects

Sloka Viewer – Frontend Web Application

Tech Stack: HTML5, CSS3, JavaScript

- Designed and developed a responsive user interface.
- Implemented dynamic rendering to display random Sanskrit slokas.
- Built a language toggle for Sanskrit and English translations.
- Integrated Text-to-Speech for improved accessibility.
- Ensured cross-device compatibility.

ID Card Generator – Web Application

Tech Stack: HTML, CSS, JavaScript

- Developed a dynamic ID Card Generator with real-time preview.
- Implemented form validation and structured data handling.
- Designed a clean, responsive, and print-ready interface.
- Optimized layouts for both digital and physical ID usage.

ExamMate – AI-Powered Exam Preparation Tool (*Ongoing*)

Tech Stack: HTML, CSS, JavaScript, AI APIs

- Building a web-based platform to assist students with exam preparation.
- Generates subject-wise questions and answers based on user input.
- Designed a simple, student-friendly interface for quick learning.
- Focused on improving productivity and concept clarity through AI assistance.

Internship Experience

Artificial Intelligence Intern

Embrizon Technologies | May 2024 – July 2024

- Gained hands-on exposure to AI concepts and real-world workflows.
- Applied programming fundamentals to practical problem-solving.
- Collaborated on an AI-based project, strengthening analytical skills.

Achievements & Activities

- Conducted a **one-day career development workshop** at **BSVS Tutorials**, focusing on LinkedIn optimization, GitHub usage, AI prompting, and project deployment.
- Participated in coding contests and hackathons.
- Actively enhancing frontend development skills through projects.

Strengths

- Strong problem-solving and logical thinking
- Quick learner with adaptability to new technologies
- Effective team collaboration and ownership mindset

Declaration

I hereby declare that the above information is true to the best of my knowledge.
