## Frontend Developer Intern

Motivated Computer Science student with strong fundamentals in **HTML, CSS, and JavaScript**, experienced in building responsive web interfaces and interactive frontend projects. Actively seeking a **frontend internship** where I can contribute, learn, and grow through real-world development work.

---

## Education

**B.Tech – Computer Science & Engineering**  
CMR College of Engineering and Technology, Hyderabad  
2025 – 2028

**Diploma – Computer Science & Engineering**  
Sree Dattha Institutions, Hyderabad  
2022 – 2025

**Secondary Education (CBSE)**  
The Nalgonda Public School, Nalgonda  
*Completed: 2022*

---

## Technical Skills

### Frontend Technologies

- HTML5, CSS3
- JavaScript

### Tools & Platforms

- Git & GitHub
- VS Code
- XAMPP

## Other Knowledge

- Basics of Java
  - Python
  - MySQL
  - Object-Oriented Programming
  - Web Development Fundamentals
-

# Projects

## Sloka Viewer – Frontend Web Project

### Tech Stack: HTML5, CSS3, JavaScript

- Designed and developed a responsive user interface using HTML, CSS, and JavaScript.
- Implemented dynamic content rendering to display random Sanskrit slokas.
- Built a language toggle feature to switch between original text and English translation.
- Integrated Text-to-Speech functionality to enhance accessibility and user interaction.
- Ensured compatibility across desktop and mobile devices.

## Voice Assistant – HARSH (Ongoing Project)

### Tech Stack: HTML, CSS, JavaScript (Web Speech API)

- Developing a browser-based assistant with voice recognition and speech output.
- Implemented JavaScript-based command handling for interactive responses.
- Designed frontend interface focused on usability and clean layout.
- Supporting bilingual voice commands (English & Telugu).

---

# Internship Experience

## Artificial Intelligence Internship

Embrizon Technologies

May 2024 – July 2024

- Gained hands-on exposure to AI concepts and real-time project workflows.
- Applied programming fundamentals to practical problem-solving tasks.
- Collaborated on an AI-based project, strengthening analytical and technical skills.

---

# Achievements & Activities

- Participated in coding contests and hackathons.
- Actively preparing for **TCS CodeVita 2025**.
- Continuously improving frontend and web development skills through projects.

---

# Strengths

- Strong problem-solving and logical thinking
- Quick learner with adaptability to new technologies
- Good team collaboration and ownership mindset
- Genuinely motivated to work and grow in a professional environment

**Declaration**

I hereby declare that the above information is true to the best of my knowledge.

**Place:** Hyderabad

**Date:** 13/09/2025
